   d. Deputy City Attorney Bill Larsen – Mr. Larsen informed the public and the council about complaints regarding vacant and/or foreclosed homes. Complaints include illegal filming of pornography, transients moving into properties, and teens and young adults using vacant homes to party. Illegal filming complaints should be reported directly to LAPD’s vice division. Other issues should be directed to the Department of Building and Safety so they can contact the banks and lenders of the foreclosed homes and have them padlocked. Mr. Larsen also discussed allowances for food and catering trucks on public streets.
   e. City Alternative Technologies Project – Rebecca Wood and Miguel Zermeno gave a presentation on the city’s sanitation and recycling programs. The Bureau of Sanitation’s goal is to phase out urban landfills within the next twenty years and achieve zero waste. Mr. Zermeno went over the criteria the Bureau is using to look for new waste sites and ways to reuse black bin waste. Mr. McCarty briefly discussed the Valley’s Green Team proposal to use local companies to reuse black bin waste after it is sorted. There was a brief discussion regarding energy used to dispose of waste in landfills. Further information can be found at the Bureau’s website: www.alternativetechnology.lacity.org.

Pastor Lin, the church elders and the neighbors had a meeting June 13, 2009. The church has not sought a new location and is not denying that it may buy the property next to it and expand the church. Another meeting is tentatively scheduled next month. A land use attorney is needed to explain a federal law regarding discrimination of small churches. Mr.
Dwiggins, the new head of the Land Use Committee, also commented on foreclosed homes in the area and believes it to be a land use issue.
